

1 The Clever Crow

2

3 One hot summer day, a thirsty crow flew across the fields in search of water. After a
long search, he finally spotted a pitcher with a little water at the bottom. Excited, he
flew down and tried to drink—but his beak couldn't reach the water.

4

5 The crow didn't give up. He looked around and saw some pebbles nearby. One by one, he
picked them up and dropped them into the pitcher. Slowly, the water rose higher and
higher until it was within reach.

6

7 The crow drank happily and flew away, refreshed and proud of his cleverness.

8

9 Moral: *Where there's a will, there's a way.*
